

WELCOME TO BHUTAN WHERE HAPPINESS IS A GOAL
&
EXPERIENCE THE TRUE FEELING OF A HEAVEN ON EARTH!

Welcome to Bhutan where happiness is a goal and experience the true feeling of a heaven on earth!

Nestled in the southern folds of the mighty Himalayas Bhutan is a small Buddhist kingdom frozen in time and mystery. The unharmed streams and brooks, hills of pines and cedars coupled with mighty peaks that simply juts out of the distant horizon is sure to add to the beautiful panorama of this enchanting country of just 800,000 inhabitants that welcome visitors through the wide chasm of their doma-stained teeth.

Known commonly to the world as the Land of Thunder Dragon, Bhutan's 38,000 Sq. Kms boasts of having more than 70 percent of its total land mass in incessant forest cover making it to the top ten biological hotspots of the globe. The immaculate landscape and unsullied culture has become synonymous to Bhutan and to the niche traveler as tourists flock into the nation by thousands every so often defying the 'much-hyped dollar 250 a day tag' which Bhutan follows in its tourism policy to check the many negativities connected to mass tourism.

To beat this, most Bhutanese houses are decorated with paintings of giant phalluses and out-of-the-ordinary architectures. The scorching and pungent dish of emadatsi (a dish of dried red chilly and mature cheese) is also sure to add to one's culinary desires as you navigate across mountains interrupted by fluttering prayer flags and enormous Dzongs (fortresses) that stand like sentinels to this primeval land of legend and mysteries.

The country's virgin forest, unspoilt nature and rich floral and fauna repository has become a sanctuary for nature lovers and trekkers. Bhutan boasts of having one of the most beautiful and difficult trekking routes in the world. The landscape is dotted with a wide selection of flowering trees like the rhododendrons, peach and cherry blossoms coupled with stunningly beautiful scenes of the Himalayan grandeur unmatched anywhere else in the globe.

Further, the unassuming age-old tradition and culture has stayed unaffected for centuries thanks to the country's guiding development philosophy of Gross National Happiness, which is typical only to this part of the world. The vibrant and colorful mask dances and the national game of archery are some highlights of the country's many cultural wonders that are guaranteed to allure the 21 century adventure seeker and traveler.

About Us
