Sanur Escape

The coastal village of Sanur is Bali's oldest tourism resort area known for its coral protected waters, family-friendly beach and magical sunrise views. Notably quieter than other destinations, it has a laid-back vibe that is perfect for travellers seeking tropical relaxation.

Steeped in history, Sanur is believed to be one of Bali's earliest settlements as archaeological objects found in the area date back hundreds of years. In the early 1900's, Sanur was used as a landing point for the Dutch navy during the era of colonisation. It

wasn't until the 1930's that the village's palm-fringed beach started attracting international visitors and curious artists. Several decades later, Indonesia's President Sukarno was so enchanted by Sanur that he ordered the iconic Bali Beach Hotel to be built using Japanese war reparations funds.

Sanur today is a charming destination that continues to evolve yet still retains its traditional roots. At **Kayumanis Sanur Private Villa & Spa**, we celebrate our location and all of the aspects that makes it so unique.
